PROFESSIONAL SUMMARY

Front-end engineer with 4+ years building production web applications in React, Next.js, and TypeScript. Currently the primary front-end owner of a multi-product travel booking platform, covering flights, hotels, cruises, car rental, and white-label partner sites, all built on one shared, multi-tenant codebase across multiple languages and currencies. Earlier experience includes real-time trading dashboards and wallet interfaces for a fintech and crypto platform, built on REST APIs and WebSocket price feeds. Owns features end-to-end, from architecture through release.

TECHNICAL SKILLS

PROFESSIONAL EXPERIENCE

Front-End Engineer — GoToSafar (Ipek Yolu Araz)

Tabriz, Iran | Full-time, Hybrid | May 2023 – Present

- Own front-end architecture and delivery across four product surfaces built from one shared React/Next.js codebase: GoToSafar's core booking platform, admin panel, GoToCruise, and white-label partner sites.
- Built React/Next.js booking flows spanning flights, hotels, cruises, car rental, transfers, tours, and visa services.
- Architected reusable front-end patterns for multi-tenant, multi-language, and multi-currency support, so new white-label partner sites launch from the existing codebase rather than being rebuilt.
- Improved performance, state management, localization, and API integration across production booking and admin features.
- Partner with backend and product teams to take features from planning through release.

Technologies: React.js, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, Bootstrap, i18n, Axios, PWA, GA4

Front-End Developer — Mahan Pardakht / Negin Fannavaran Arta

Tabriz, Iran | Full-time, Hybrid | January 2022 – April 2023

- Architected and built React/Next.js interfaces across fintech, crypto, gold-trading, and AI platforms for the company's product suite.
- Developed real-time trading dashboards, wallet and payment UIs, KYC/account flows, and admin interfaces, consuming REST APIs and WebSocket price feeds.
- Supported crypto and trading products covering 200+ coins, including live price feeds, wallet operations, and transaction tracking.
- Delivered responsive UI and reusable components across multiple products, with an ongoing focus on usability and maintainability.

Technologies: React.js, Next.js, TypeScript, Redux Toolkit, Axios, WebSocket, Sass, PWA

Front-End Developer (Contract) — Web Negah

Tehran, Iran | Contract, Remote | November 2022 – February 2023

- Architected and built the Asan Tahator e-commerce front end from scratch using Next.js, GraphQL, Redux Toolkit, and Sass.
- Delivered pixel-accurate, responsive UI with a clean, maintainable component structure.

Technologies: Next.js, GraphQL, Redux Toolkit, Sass
